This collection offers a comprehensive decorative range.

It features carefully selected textures, ideal for their intended use, and high-density melamine (120 g/m²) with excellent abrasion resistance and enhanced durability.

Panels are produced using raw materials sourced from sustainable origins, incorporating a high percentage of recycled content—often exceeding 70%. At the end of their lifecycle, the products are nearly 100% recyclable.

Guialmi holds FSC® (FSC-C135535) and PEFC (PEFC/13-31-136) license codes, reflecting its commitment to sustainability.
